

#### Health First Bronze HMO 60 1750

Summary of Benefits and Coverage: What this Plan Covers & What You Pay For Covered Services

Coverage for: Individual + Family | Plan Type: HMO

Important Questions	Answers	Why this Matters:
What is the overall <u>deductible</u> ?	\$8,500 person/ \$17,000 family	Generally, you must pay all of the costs from providers up to the <u>deductible</u> amount before this <u>plan</u> begins to pay. If you have other family members on the <u>plan</u> each family member must meet their own individual <u>deductible</u> until the total amount of <u>deductible</u> expenses paid by all family members meets the overall family <u>deductible</u>
Are there services covered before you meet your <u>deductible</u> ?	Preventive services, maternity office visits (1-15 per year)	This <u>plan</u> covers some items and services even if you haven't yet met the annual <u>deductible</u> amount. But a <u>copayment</u> or <u>coinsurance</u> may apply. For example, this <u>plan</u> covers certain preventative services without <u>cost sharing</u> and before you meet your <u>deductible</u> . See a list of covered preventative services at https://www.healthcare.gov/coverage/preventative-care-benefits/.
Are there other deductibles for specific services?	No, There are no other specific deductibles.	No, you don't have to meet deductibles for specific services.
What is the <u>out-of- pocket</u> <u>limit</u> for this plan?	\$8,700 person/ \$17,400 family;	The <u>out-of-pocket limit</u> is the most you could pay in a year for covered services. If you have other family members in this <u>plan</u> they have to meet their own out-of-pocket limits until the overall family <u>out-of-pocket</u> <u>limit</u> has been met
What is not included in the <u>out–of–pocket limit</u> ?	Premiums, balance billed charges, non-covered services.	Even though you pay these expenses, they don't count toward the out-of-pocket limit
Will you pay less if you use a <u>network provider</u> ?	Yes. See http://myHFHP.org/MP_directory_2022 or call 1.855.443.4735 for a list of <u>network</u> providers.	This <u><b>plan</b></u> uses a provider <u><b>network</b></u> . You will pay less if you use a <u><b>provider</b></u> in the <u><b>plan</b></u> s <u><b>network</b></u> . You will pay the most if you use an out-of <u><b>network</b></u> provider, and you might receive a bill from a <u><b>provider</b></u> for the difference between the <u><b>provider</b></u> s charge and what your <u><b>plan</b></u> pays (a <u><b>balance billing</b></u> . Be aware your <u><b>network</b></u> provider might use an out-of <u><b>network</b> provider for some services (such as lab work). Check with your <u><b>provider</b></u> before you get services.</u>
Do I need a <u>referral</u> to see a <u>specialist</u> ?	No.	You can see the <u>specialist</u> you choose without a referral

#### About these Coverage Examples:

This is not a cost estimator. Treatments shown are just examples of how this <u>plan</u> might cover medical care. Your actual costs will be different depending on the actual care you receive, the prices your <u>providers</u> charge, and many other factors. Focus on the cost sharing amounts (<u>deductibles</u>, <u>copayments</u> and <u>coinsurance</u>) and excluded services under the plan. Use this information to compare the portion of costs you might pay under different health plans. Please note these coverage examples are based on self-only coverage.

Note: These numbers assume the patient does not participate in the **plan's** wellness program. If you participate in the **plan's** wellness program, you may be able to reduce your costs. For more information about the wellness program, please contact: 1.855.443.4735

The **plan** would be responsible for the other costs of these EXAMPLE covered services.

#### **Questions and answers about the Coverage Examples:**

# What are some of the assumptions behind the Coverage Examples?

- Costs don't include premiums .
- Sample care costs are based on national averages supplied by the U.S.
   Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from participating <u>providers</u>. If the patient had received care from non-participating <u>providers</u>, costs would have been higher.

### What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how <u>deductibles</u>, <u>copayments</u>, and <u>coinsurance</u> can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

## Does the Coverage Example predict my own care needs?

**No.** Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

# Does the Coverage Example predict my future expenses?

<u>No.</u> Coverage Examples are <u>not</u> cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your <u>providers</u> charge, and the reimbursement your health plan allows.

### Can I use Coverage Examples to compare plans?

Yes. When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

### Are there other costs I should consider when comparing plans?

Yes. An important cost is the premium you pay. Generally, the lower your premium, the more you'll pay in out-ofpocket costs, such as <u>copayments</u>, <u>deductibles</u>, and <u>coinsurance</u>. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
