

## DeltaCare<sup>®</sup> USA Pediatric Basic Plan for Small Businesses

# Dental benefits made easy.

## What is DeltaCare USA?

**DeltaCare USA is a copay plan that works similar to a dental HMO.** With this type of plan, enrollees must visit their selected DeltaCare USA dentist to receive benefits.<sup>1</sup> At the dentist, they will pay a predefined copayment — and that's it! Since we provide a list of copayments for covered services up front, enrollees can prepare for treatment costs ahead of time.

And, because this plan has no waiting periods, benefits can be used on the first day that coverage becomes effective.

**Delta Dental Insurance Company provides benefits as a Prepaid Limited Health Services Organization as described in Chapter 636 of the Florida Statutes.**

# Is DeltaCare USA the right plan for my business?

**DeltaCare USA can be a great choice for an affordable plan.** Plus, with a large network of quality dentists, enrollees can get great service close to home.

**Need more reasons to love DeltaCare USA?** Most diagnostic and preventive procedures, like routine cleanings, are offered at low or no copay. And if an enrollee needs emergency dental care, even while away from home, they're covered through an emergency services provision.

## Important tips

- This plan only covers enrollees when they visit their selected DeltaCare USA dentist. One will be assigned upon enrollment, but they can easily change dentists online or by phone.
- Enrollees can find a DeltaCare USA dentist close to home or work at [deltadentalins.com](http://deltadentalins.com).
- Review the plan highlights on the next page to view copayments for the most common covered services. Want more? View the limitations and exclusions.

Endnotes:

Unless clarified elsewhere in the Schedule A, base metal is the Benefit. If noble or high noble metal (precious) is used for an implant/abutment supported crown or fixed bridge retainer, the Enrollee will be charged the additional laboratory cost of the noble or high noble metal. If covered, an additional laboratory charge also applies to a titanium crown.

Porcelain/ceramic crown, pontic and fixed bridge retainer on molars is considered a material upgrade with a maximum additional charge to the Enrollee of \$150 per unit.

When there are more than six crowns, retainers and/or pontics in the same treatment plan, an Enrollee may be charged an additional \$125 per unit, beyond the 6th unit.

Name brand, laboratory processed or in-office processed crowns/pontics produced through specialized technique or materials are material upgrades. The Contract Dentist may charge an additional fee not to exceed \$325 in addition to the listed Cost Share. Refer to *Schedule B for Limitations and Exclusions* for additional information.

If services for a listed procedure are performed by the assigned Contract Dentist, the Enrollee pays the specified Cost Share(s). Listed procedures which require a Dentist to provide Specialist Services, and are referred by the assigned Contract Dentist, must be authorized by Delta Dental. The Enrollee pays the Cost Share(s) specified for such services.

Optional or upgraded procedure(s) are defined as any alternative procedure(s) presented by the Contract dentist and formally agreed upon by financial consent that satisfies the same dental need as a covered procedure. Enrollee may elect an optional or upgraded procedure, subject to the limitations and exclusions of this Plan. The applicable charge to the Enrollee is the difference between the Contract Dentist's regularly charged fee (or contracted fee, when applicable) for the Optional or upgraded procedure and the covered procedure, plus any applicable Cost Share for the covered procedure.

SCHEDULE B  
Limitations and Exclusions of Benefits for Pediatric Enrollees  
DeltaCare® USA

Limitations and Exclusions of Benefits for Pediatric Enrollees (Under age 19)

Limitations of Benefits

The frequency of certain Benefits is limited. Frequency limitations are listed in *Schedule A, Description of Benefits and Copayments*.

1. Isolated bitewing or periapical films are allowed on an emergency or episodic basis.
2. Additional coverage of Panoramic and cephalometric x-rays (D0330, D0340) is allowed as part of an initial medically necessary orthodontic treatment or on an emergency basis.
3. Sealants (D1351, D1352) are covered only on permanent molars. The teeth must be caries free with no restorations on the mesial, distal or occlusal surfaces.
4. Repair or replacement of restorations by the same dentist and involving the same tooth surfaces, performed within 24 months of the original restoration are included, and a separate fee is not chargeable to the Enrollee by a Contract Dentist. However, coverage may be allowed if the repair or replacement is due to fracture of the tooth or the restoration involves the occlusal surface of a posterior tooth or the lingual surface of an anterior tooth and is placed following root canal therapy.
5. Covered restorations include all related services, such as etching, bases, liners, dentinal adhesives, local anesthesia, polishing, caries removal, preparation of gingival tissue, occlusal/contact adjustments, and detection agents.
6. Resin restoration is a Benefit when a laboratory fabricated porcelain or resin veneer is used to restore any teeth due to tooth fracture or caries.
7. Prefabricated crowns (D2929, D2930, D2931) are covered only on primary teeth, permanent teeth through age 14, or when placed as a result of accidental injury.
8. Name brand, laboratory processed or in-office processed crowns/pontics produced through specialized technique or materials are material upgrades. Contract Dentists may offer services that utilize brand or trade names at an additional fee. The Enrollee must be offered the plan Benefits of a high quality laboratory processed crown/pontic that may include: porcelain/ceramic; porcelain with base, noble or high-noble metal. If the Enrollee chooses the alternative of a material upgrade (name brand laboratory processed or in-office processed crowns/pontics produced through specialized technique or materials) the Contract Dentist may charge an additional fee not to exceed \$325.00 in addition to the listed Copayment. Examples of material upgrade include: Captex, Procera, Lava, Empress and Cerec. Contact the Customer Service department at 888-857-0337 if you have questions regarding the additional fee or name brand services.
9. Onlays, permanent single crown restorations, and posts and cores for Enrollees 12 years of age or younger are excluded from coverage, unless specific rationale is provided indicating the reason for such treatment (e.g., fracture, endodontic therapy, etc.) and is approved by the plan.
10. Core buildups (D2950) can be considered for Benefits only when there is insufficient retention for a crown. A buildup should not be reported when the procedure only involves a filler used to eliminate undercuts, box forms or concave irregularities in the preparation.

11. Replacement of crowns, inlays, onlays, buildups, and posts and cores is covered only if the existing crown, inlay, onlay, buildup, or post and core was inserted at least sixty (60) months prior to the replacement and satisfactory evidence is presented that the existing crown, inlay, onlay, buildup, or post and core is not and cannot be made serviceable. The sixty (60) month service date is measured based on the actual date (day and month) of the initial service versus the first day of the initial service month.
12. Onlays, crowns, and posts and cores are covered only when necessary due to decay or tooth fracture. However, if the tooth can be adequately restored with amalgam or composite (resin) filling material, coverage is for that service. Crowns, inlays, onlays, buildups, or posts and cores, begun prior to the effective date of coverage or cemented after the cancellation date of coverage, are not eligible for coverage.
13. Recement or re-bond of prefabricated and cast crowns, bridges, onlays, inlays, and posts is provided within 12 months of placement by the same dentist is included at no additional cost to the Enrollee.
14. Posts are only covered when provided as part of a buildup for a crown. When performed as an independent procedure, the placement of a post is not a covered Benefit.
15. Pulpotomies are included when performed by the same dentist within a 45-day period prior to the completion of root canal therapy.
  - a. A pulpotomy is covered when performed as a final endodontic procedure and is covered generally on primary teeth only. Pulpotomies performed on permanent teeth are included to root canal therapy and are not reimbursable unless specific rationale is provided and root canal therapy is not and will not be provided on the same tooth.
  - b. Pulpotomies performed on permanent teeth are included to root canal therapy and are not reimbursable unless specific rationale is provided and root canal therapy is not and will not be provided on the same tooth.
16. Incomplete endodontic therapy is not a covered Benefit when due to the Enrollee discontinuing treatment.
17. For reporting and Benefit purposes, the completion date for endodontic therapy is the date the tooth is sealed.
18. Subepithelial connective tissue grafts and combined connective tissue and double pedicle grafts are covered at the level of free soft tissue grafts.
19. A single site for reporting osseous grafts consists of one contiguous area, regardless of the number of teeth (e.g., crater) or surfaces involved. Another site on the same tooth is included to the first site reported. Non-contiguous areas involving different teeth may be reported as additional sites.
20. Up to four periodontal maintenance procedures and up to two routine prophylaxes may be covered within a 12 consecutive month period, but the total of periodontal maintenance and routine prophylaxes may not exceed four procedures in a 12 month period.
  - a. Periodontal maintenance is only covered when performed following active periodontal treatment.
  - b. An oral evaluation reported in addition to periodontal maintenance will be covered as a separate procedure subject to the policy and limitations applicable to oral evaluations.

21. Coverage for multiple periodontal surgical procedures (except soft tissue grafts and osseous grafts) provided in the same area of the mouth during the same course of treatment is based on the fee for the greater surgical procedure.
22. Charges for related services such as necessary wires and splints, adjustments, and follow up visits are included to the fee for reimplantation and/or stabilization.
23. Routine postoperative care such as suture removal is included to the fee for the surgery.
24. The removal of impacted teeth is covered based on the anatomical position as determined from a review of x-rays. If the degree of impaction is determined to be less than the reported degree, coverage will be based on the allowance for the lesser level.
25. Removal of impacted third molars in Enrollees under age 15 is not covered unless specific documentation is provided that substantiates the need for removal and is approved by the plan.
26. For reporting and Benefit purposes, the completion date for crowns and fixed partial dentures is the cementation date. The completion date is the insertion date for removable prosthodontic appliances. For immediate dentures, however, the dentist who fabricated the dentures may be reimbursed for the dentures after insertion if another dentist, typically an oral surgeon, inserted the dentures.
27. Removable cast base partial dentures for Enrollees under 12 years of age are excluded from coverage unless specific rationale is provided indicating the necessity for that treatment and is approved by the plan.
28. Re-cement or re-bond of prefabricated and cast crowns, bridges, onlays, inlays, and posts is eligible once per 6-month period. Recement or re-bond provided within 12 months of placement by the same dentist is included at no additional cost to the Enrollee. Adjustments provided within six months of the insertion of an initial or replacement denture or implant are included at no additional cost to the Enrollee when made by the same dentist.
29. With the exception of a new immediate denture, relining or rebasing is covered at no additional cost to the Enrollee within six months of a denture's initial delivery.
30. Coverage for a denture made with precious metals is based on the allowance for a conventional denture.
31. A removable partial denture to replace all missing teeth in the arch is the Benefit.
32. Precision attachments, personalization, precious metal bases, and other specialized techniques are not covered Benefits.
33. Replacement of removable prostheses and fixed prostheses is covered only if the existing removable and/or fixed prostheses was inserted at least sixty (60) months prior to the replacement and satisfactory evidence is presented that the existing removable and/or fixed prostheses cannot be made serviceable. Satisfactory evidence must show that the existing removable prostheses and/or fixed prostheses cannot be made serviceable. The 60 month service date is measured based on the actual date (day and month) of the initial service versus the first day of the initial service month.
34. Implants and related prosthetics may be covered and may be reimbursed as an alternative Benefit as a three unit fixed partial denture (FPD).
35. Replacement of appliances that have been lost, stolen, or misplaced is not a covered service. Examples include: full or partial dentures, space maintainers, crowns and prostheses.

36. Deep sedation/general anesthesia and intravenous conscious sedation are covered (by report) only when provided in connection with a covered procedure(s) and when rendered by a dentist or other professional licensed dentist and approved to provide anesthesia in the state where the service is rendered.
37. Deep sedation/general anesthesia and intravenous conscious sedation are covered (by report) when determined to be medically or dentally necessary for documented handicapped or uncontrollable Enrollees or justifiable medical or dental conditions.
38. In order for deep sedation/general anesthesia and intravenous conscious sedation to be covered, the procedure for which it was provided must be submitted. Services submitted without a report will be denied as a non-covered Benefit.
39. For palliative (emergency) treatment to be covered; it must involve a problem or symptom that occurred suddenly and unexpectedly that requires immediate attention. The dentist must provide treatment to alleviate the Enrollee's problem. If the only service provided is to evaluate the Enrollee and refer to another dentist and/or prescribe medication, it would be considered a limited oral evaluation - problem focused.
40. Consultations are covered only when provided by a dentist other than the practitioner providing the treatment.
41. After hours visits are covered only when the dentist must return to the office after regularly scheduled hours to treat the Enrollee in an emergency situation.
42. Therapeutic drug injections are only covered in unusual circumstances, which must be documented by report. They are not Benefits if performed routinely or in conjunction with, or for the purposes of, general anesthesia, analgesia, sedation or premedication.
43. Occlusal guards are covered by report for Enrollee 13 years of age or older when the purpose of the occlusal guard is the treatment of bruxism and shall be prior authorized

#### Exclusions of Benefits

Except as specifically provided, the following services, supplies, or charges are not covered:

1. Any dental service or treatment not specifically listed under *Schedule A, Description of Benefits and Copayments*, as a covered service.
2. Dental services received from any dental facility other than the assigned Contract Dentist or an authorized Contract Specialist (oral surgeon, endodontist, periodontist, pediatric dentist or Contract Orthodontist) except for *Emergency Services* as described in the Contract and/or Contract and/or Evidence of Coverage.
3. Those not prescribed by or under the direct supervision of a dentist, except in those states where dental hygienists are permitted to practice without supervision by a dentist. In these states, the plan will pay for eligible covered services provided by an authorized dental hygienist performing within the scope of his or her license and applicable state law.
4. Any procedure that has a poor prognosis for a successful result and reasonable longevity based on the condition of the tooth or teeth and/or surrounding structures, or is inconsistent with meeting accepted standards of dental practice.

5. Dental expenses incurred in connection with any dental procedure started before the Enrollee's eligibility with the DeltaCare USA plan. Examples include: teeth prepared for crowns, root canals in progress, full or partial dentures for which an impression has been taken and orthodontics unless qualified for the orthodontic treatment in progress provision.
6. Those incurred after the termination date of the member's coverage unless otherwise indicated.
7. Those which are not medically or dentally necessary, or which are not recommended or approved by the treating dentist. (Services determined to be unnecessary or which do not meet accepted standards of dental practice are not billable to the Enrollee by a Contract Dentist unless the dentist notifies the Enrollee of his/her liability prior to treatment and the Enrollee chooses to receive the treatment. Contract Dentists should document such notification in their records.)
8. Services or treatment provided by a member of the Enrollee's immediate family.
9. Those services submitted by a dentist which are for the same services performed on the same date for the same Enrollee by another dentist.
10. Those which are experimental or investigative (deemed unproven).
11. Those which are for unusual procedures and techniques and may not be considered generally accepted practices by the American Dental Association.
12. Consultations or other diagnostic services for non-covered Benefits.
13. Telephone consultations.
14. All related fees for admission, use, or stays in a hospital, out-patient surgery center, extended care facility, or other similar care facility.
15. Prescription and over-the-counter drugs.
16. Preparations that can be used at home, such as fluoride gels, special mouth rinses (including antimicrobials), etc.
17. Those which are for any illness or bodily injury which occurs in the course of employment if Benefits or compensation is available, in whole or in part, under the provision of any legislation of any governmental unit. This exclusion applies whether or not the member claims the Benefits or compensation.
18. Those which are later recovered in a lawsuit or in a compromise or settlement of any claim, except where prohibited by law.
19. Those provided free of charge by any governmental unit, except where this exclusion is prohibited by law.
20. Those for which the member would have no obligation to pay in the absence of this or any similar coverage.
21. Those received from a dental or medical department maintained by or on behalf of an employer, mutual benefit association, labor union, trust, or similar person or group.
22. Services for Orthodontic treatment (treatment of malocclusion of teeth and/or jaws) except medically necessary orthodontics provided prior Authorization is obtained.
23. Those performed by a dentist who is compensated by a facility for similar covered services performed for members.

24. Those resulting from the Enrollee's failure to comply with professionally prescribed treatment.
25. Any charges for failure to keep a scheduled appointment.
26. Duplicate and temporary devices, appliances, and services.
27. Any services that are considered strictly cosmetic in nature such as charges for personalization or characterization of prosthetic appliances.
28. Services related to the diagnosis and treatment of Temporomandibular Joint Dysfunction (TMD).
29. Services to alter vertical dimension and/or restore or maintain the occlusion. Such procedures include, but are not limited to, equilibration, periodontal splinting, full mouth rehabilitation, and restoration for misalignment of teeth.
30. Treatment or services for injuries resulting from the maintenance or use of a motor vehicle if such treatment or service is covered under a plan or policy of motor vehicle insurance, including a certified self-insurance plan.
31. Treatment of services for injuries resulting from war or act of war, whether declared or undeclared, or from police or military service for any country or organization.
32. Services or treatment provided as a result of intentionally self-inflicted injury or illness.
33. Services or treatment provided as a result of injuries suffered while committing or attempting to commit a felony, engaging in an illegal occupation, or participating in a riot, rebellion or insurrection.
34. Treatment or appliances that are provided by a Dentist whose practice specializes in prosthodontic services.
35. Charges for copies of Enrollees' records, charts or x-rays, or any costs associated with forwarding/ mailing copies of Enrollees' records, charts or x-rays.
36. State or territorial taxes on dental services performed.
37. Adjunctive dental services as defined by applicable federal regulations. These are medical services that may be covered under a medical policy even when provided by a general dentist or oral surgeon.
  - a. Adjunctive dental care is dental care that is:
    - i. Medically necessary in the treatment of an otherwise covered medical (not dental) condition.
    - ii. An integral part of the treatment of such medical condition.
    - iii. Essential to the control of the primary medical condition.
    - iv. Required in preparation for or as the result of dental trauma, which may be or is caused by medically necessary treatment of an injury or disease (iatrogenic).
  - b. The following diagnoses or conditions may fall under this category:
    - i. Treatment for relief of Myofascial Pain Dysfunction Syndrome (MFPS) or Temporomandibular Joint Dysfunction (TMJD).
    - ii. Orthodontic treatment for cleft palate, or when required in preparation for, or as a result of, trauma to teeth and supporting structures caused by medically necessary treatment of an injury or disease.
    - iii. Procedures associated with preventive and restorative dental care when associated with radiation therapy to the head or neck unless otherwise covered as a routine preventive procedure under this plan.
    - iv. Treatment of total or complete ankyloglossia.

- v. Treatment of an extraoral abscess or intraoral abscess that extends beyond the dental alveolus.
- vi. Treatment of cellulitis and osteitis, which is clearly exacerbating and directly affecting a medical condition currently under treatment.
- vii. Removal of teeth and tooth fragments in order to treat and repair facial trauma resulting from an accidental injury.
- viii. Prosthetic replacement of either the maxilla or mandible due to reduction of body tissues associated with traumatic injury (such as a gunshot wound) in addition to services related to treating neoplasms or iatrogenic dental trauma.)

38. Orthodontic treatment must be provided by a licensed dentist. Self-administered orthodontics are not covered.

39. The removal of fixed orthodontic appliances for reasons other than completion of treatment is not a covered Benefit.

Policies, Limitations, and Exclusions for Medically Necessary Orthodontic Services for Pediatric Enrollees:

1. Services are limited to medically necessary orthodontics when provided by a Contract Dentist and when necessary and customary under generally accepted dental practice standards. Orthodontic treatment is a Benefit of this plan only when medically necessary as evidenced by a severe handicapping malocclusion for Pediatric Enrollees and shall be prior authorized by the plan.
2. Orthodontic procedures are a Benefit only when the diagnostic casts verify a minimum score of 26 points on the Handicapping Labio-Lingual Deviation (HLD) Index or one of the automatic qualifying conditions below exist.
3. The automatic qualifying conditions are:
  - a. Cleft palate deformity. If the cleft palate is not visible on the diagnostic casts written documentation from a credentialed specialist shall be submitted, on their professional letterhead, with the prior authorization request,
  - b. A deep impinging overbite in which the lower incisors are destroying the soft tissue of the palate,
  - c. A crossbite of individual anterior teeth causing destruction of soft tissue,
  - d. Severe traumatic deviation.
4. The following documentation must be submitted to the plan with the request for prior authorization of services by the Contract Dentist:
  - ADA 2006 or newer claim form with service code(s) requested;
  - Diagnostic study models (trimmed) with bite registration; or OrthoCad equivalent;
  - Cephalometric radiographic image or panoramic radiographic image;
  - HLD score sheet completed and signed by the Orthodontist; and
  - Treatment plan.
5. The allowances for comprehensive orthodontic treatment procedures (D8080, D8090) include all appliances, adjustments, insertion, removal and post treatment stabilization (retention). No additional charge to the Enrollee is permitted.
6. Comprehensive orthodontic treatment includes the replacement, repair and removal of brackets, bands and arch wires by the original treating orthodontist.
7. Orthodontic procedures are Benefits for medically necessary handicapping malocclusion, cleft palate and facial growth management cases for Pediatric Enrollees and shall be prior authorized.

8. Only those cases with permanent dentition shall be considered for medically necessary handicapping malocclusion, unless the Enrollee is age 13 or older with primary teeth remaining. Cleft palate and craniofacial anomaly cases are a Benefit for primary, mixed and permanent dentitions. Craniofacial anomalies are treated using facial growth management.
9. All necessary procedures that may affect orthodontic treatment shall be completed before orthodontic treatment is considered.
10. When specialized orthodontic appliances or procedures chosen for aesthetic considerations are provided, the plan will make an allowance for the cost of a standard orthodontic treatment.
11. Repair and replacement of an orthodontic appliance inserted under the plan that has been damaged, lost, stolen, or misplaced is not a covered service.
12. Should an Enrollee's coverage be canceled or terminated for any reason, and at the time of cancellation or termination be receiving any orthodontic treatment, the Enrollee will be solely responsible for payment for treatment provided after cancellation or termination, except:

If an Enrollee is receiving ongoing orthodontic treatment at the time of termination, the plan will continue to provide orthodontic Benefits for:

- a. For 60 days if the Enrollee is making monthly payments to the Contract Orthodontist; or
- b. Until the later of 60 days after the date coverage terminates or the end of the quarter in progress, if the Enrollee is making quarterly payments to the Contract Orthodontist.

At the end of 60 days (or at the end of the Quarter), the Enrollee's obligation shall be based on the Contract Orthodontist's submitted fee at the beginning of treatment. The Contract Orthodontist will prorate the amount over the number of months to completion of the treatment. The Enrollee will make payments based on an arrangement with the Contract Orthodontist.
