Summary of Benefits and Coverage: What this Plan Covers & What You Pay For Covered Services

Coverage Period: On or after 01/01/2020

Coverage for: Individual + Family | Plan Type: POS

The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. NOTE: Information about the cost of this plan (called the premium) will be provided separately. This is only a summary. For more information about your coverage, or to get a copy of the complete terms of coverage, http://myHFHP.org/COC_HA_2020 . For general definitions of common terms, such as allowed amount, balance billing, coinsurance, copayment, deductible, provider, or other underlined terms see the Glossary. You can view the Glossary at www.cciio.cms.gov or call 1-855-443-4735 to request a copy.

Important Questions	Answers	Why this Matters:
What is the overall **deductible**?	**$2,500** person/ **$5,000** family in network; **$5,000** person/ **$10,000** family out of network	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible.
Are there services covered before you meet your **deductible**?	In-network: preventive services, maternity office visits (1-15 per year)	This plan covers some items and services even if you haven't yet met the annual deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventative services without cost sharing and before you meet your deductible. See a list of covered preventative services at https://www.healthcare.gov/coverage/preventative-care-benefits/.
Are there other **deductibles** for specific services?	No, There are no other specific deductibles.	No, you don't have to meet deductibles for specific services.
What is the **out-of- pocket limit** for this plan?	$5,000 person/$10,000 family in network; $10,000 person/ $20,000 family out of network	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met
What is not included in the **out–of–pocket limit**?	Premiums, balance billed charges, non-covered services.	Even though you pay these expenses, they don't count toward the out-of-pocket limit
Will you pay less if you use a **network provider**?	Yes. See http://myHFHP.org/MPA_directory_2020 or call 1.855.443.4735 for a list of network providers.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (a balance billing). Be aware your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do I need a **referral** to see a **specialist**?	No.	You can see the specialist you choose without a referral

All **copayments** and **coinsurance** costs shown in this chart are after your **deductible** has been met, if a **deductible** applies.

Questions and answers about the Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

- Costs don't include **premiums**.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from participating **providers**. If the patient had received care from non-participating **providers**, costs would have been higher.

What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how **deductibles**, **copayments**, and **coinsurance** can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

Does the Coverage Example predict my own care needs?

No. Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

Does the Coverage Example predict my future expenses?

No. Coverage Examples are **not** cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your **providers** charge, and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

Yes. When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

Yes. An important cost is the **premium** you pay. Generally, the lower your **premium**, the more you'll pay in out-of-pocket costs, such as **copayments**, **deductibles**, and **coinsurance**. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
