Minor Illness Center

If you need medical treatment right away, and your regular physician cannot see you quickly enough, visit one of our urgent care or walk-in clinics. No appointment is needed. Plus, it could save you time and money, and be more convenient than going to a hospital emergency room. Walk-in clinics can treat sinus and ear infections, colds, bronchitis, strep throat, pink eye, sprains, minor burns, skin infections, rashes and cuts. Urgent care centers can also treat minor fractures and cuts that need stitches.

For serious conditions, including the ones listed below, have someone take you to the nearest hospital emergency department or call 911.

- Chest pain, signs of a heart attack or stroke
- Head, neck, spine or eye injuries
- Uncontrollable bleeding
- Major fractures
- Major burns
- High fever
- Breathing difficulty
- Poisoning
- Unconsciousness

Scan the QR code above with your smart phone for a complete list of clinics with phone numbers and maps, and bookmark it for future reference. Or visit myHFHP.org/clinics.
