

Hickory Street Update

May 18, 2018

Effective **Tuesday, May 22**, the intersection of Oak Street and Hickory Street will close to thru traffic as part of the Hickory Street Complete Streets Project. We expect this closure to last three months. Drivers will be able to access all businesses and parking lots on Hickory Street north and south of the Oak Street intersection as follows:

- Access to businesses on Hickory Street **north** of the Oak Street closure will be available from NASA Boulevard only.
- Access to businesses on Hickory Street **south** of the Oak Street closure will be available from Hibiscus Boulevard only.

All thru traffic will be detoured from NASA Boulevard, Apollo Boulevard and Hibiscus Boulevard, and vice versa.

Temporary sidewalks will be in place for associates crossing from the D3 associate parking lot on the east side of Hickory Street to Holmes Regional Medical Center on the west side.

Thank you for your patience and understanding during this project. We will continue to provide updates as construction progresses.
